

PERSONAL BACKGROUND

Greetings! I'm a dedicated and passionate front-end developer with a deep love for crafting visually appealing and user-friendly websites. With a sharp focus on HTML, CSS, and JavaScript, I meticulously shape designs into interactive, user-centric websites.

SKILLS

Technical skills

- Basic skills with Figma
- HTML, CSS, Javascript
- ReactJs
- Typescript
- NextJs
- NodeJs

Soft skills

- Presentation
- Critical thinking
- Leadership

EDUCATION

Hanoi University

Bachelor of Information Technology

HOBBY

Beyond the lines of code, I have a world of interests that keep me grounded. One such passion is delving into the pages of books. There's something uniquely comforting about the weight of a book in my hands and the escape it offers into different realities. From thrilling mysteries that keep me up at night to thought-provoking non-fiction that challenges my perspective, reading is my go-to way to unwind and expand my understanding of the world around me.

HIGHLIGHTED PROJECTS

Portfolio

- Link: <https://www.minhhieu.me>
- Link to Github: <https://github.com/MinHieu2811/portfolio>

Technology

- Front-end: NextJs, Chakra UI
- Backend: Nextjs

This is my portfolio built in Nextjs, Chakra UI. You can enter the page and enjoy my friendly website with a 3D cute dog in the head. By the contact form at the end of the page, you can send me your messages

CMS Admin

Link to Github: <https://github.com/MinHieu2811/cms-admin>

Technology

- Front-end: NextJs, Chakra UI, React Query, Typescript, Zustand
- Backend: Nextjs, Prisma
- Database: MongoDB

CMS Admin is built for sellers to config their own store, product or even their employees. The website allow user to login by email and password, control their human resources, products, and update the personal information. This project is in progress and many interesting features can be published in the future.
